Objective:

The students get the opportunity to learn the highly relevant topics and concepts and their practical application under experienced academicians and industry experts. They shall be exposed to both theoretical and practical concepts through classroom lectures, assignments and industry-relevant projects to make them experts. Successful completion of the Program will earn them a certification from JAIN (Deemed-to-be University).

We offer Learner's a chance to access career coaching services like personalized CV and interview preparation to help them prepare for the challenges from the industry and acquire future-ready skills.

Delivery Mode:

Online and Hybrid

The course will be delivered through weekend online sessions / Self-paced learning and students are expected to carry out several industry-relevant scenarios and projects.
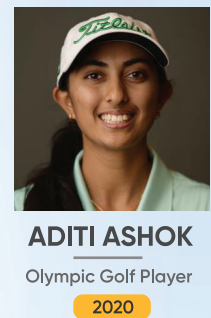

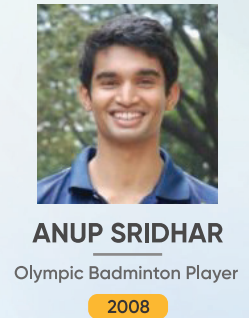

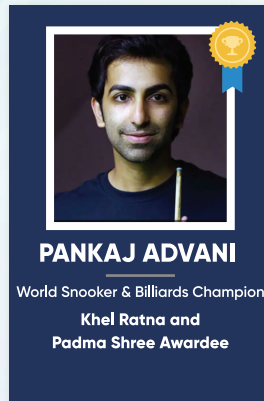

Outcome:

The Program is interactive and engaging, designed specifically to master skills and accelerate the career. Certification from JAIN (Deemed-to-be) University will definitely add more credibility to their competencies and improve their career prospects. They will receive a Certificate of Completion from JAIN (Deemed-to-be) University if they fulfill all requirements of the course.

These programs shall help students gain Industry exposure and a global recognition. Students can avail industry-recognized certifications
